

FloppyBird

OOP lap project

LAVA BIRD

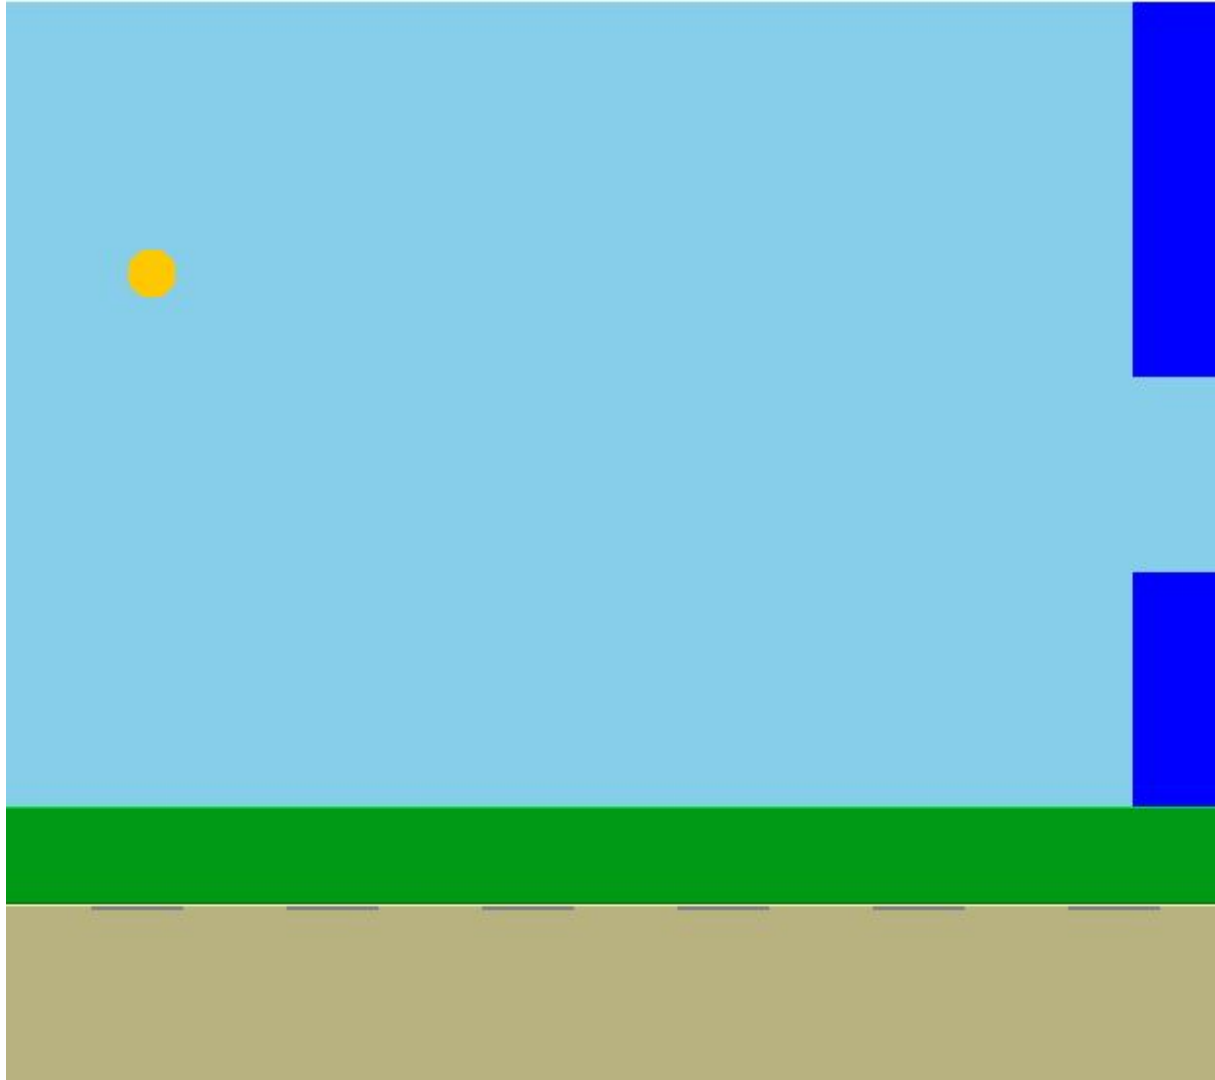

By : Mustafa Mahmoud Kareem

2021

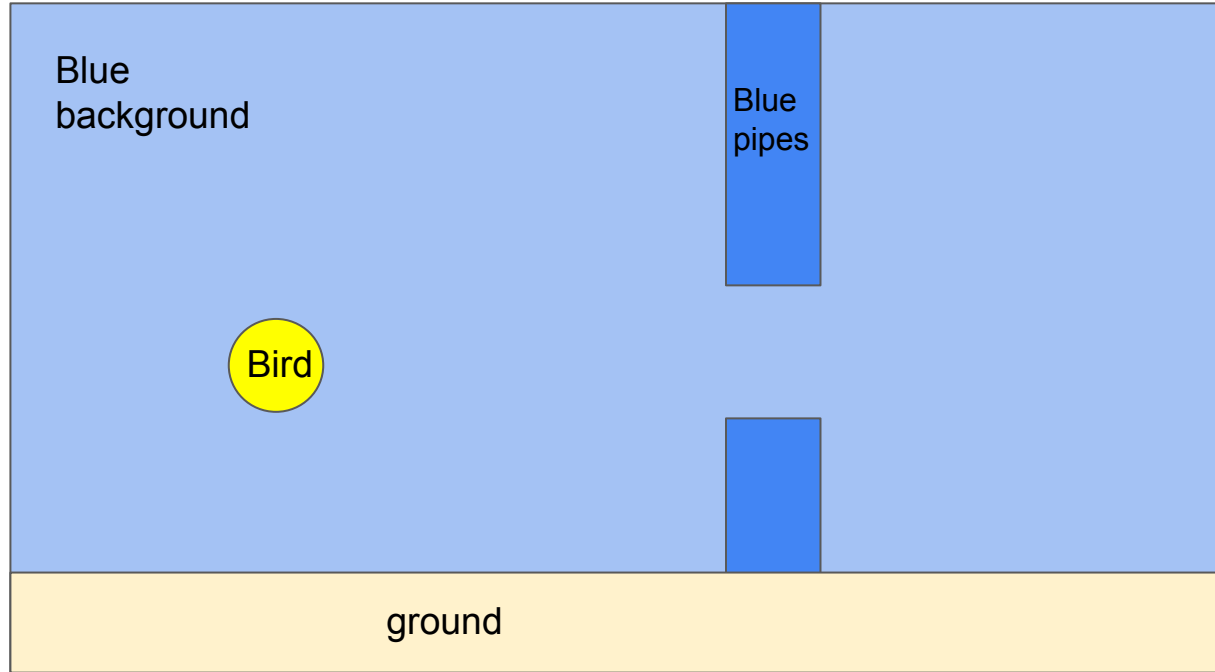

First version :

Component of the first version :

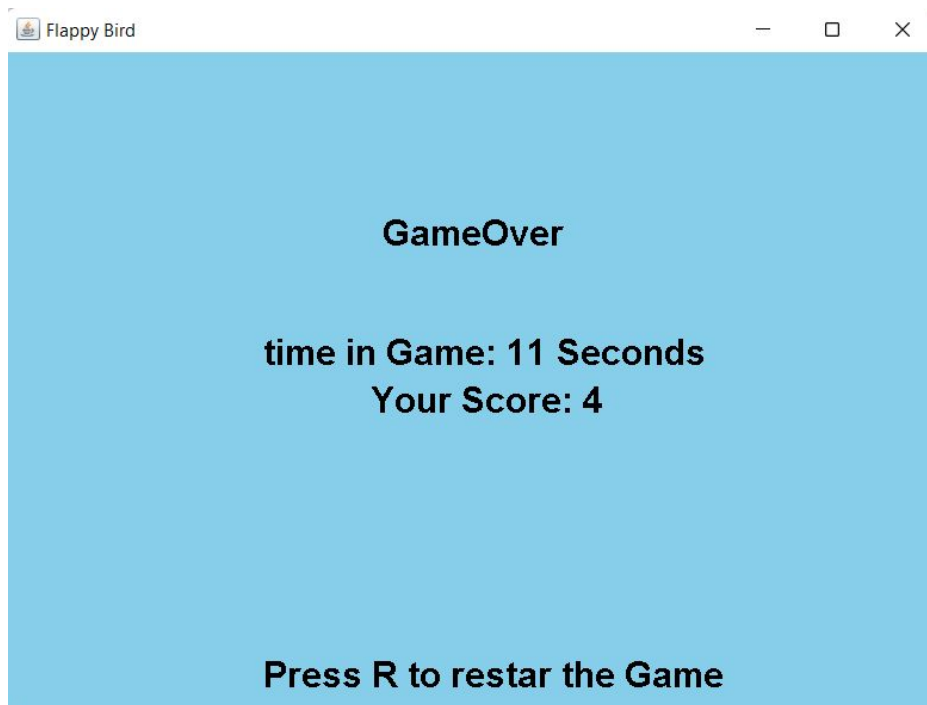

The game is simple u move the bird up by pressing the spacebar and the gravity or the velocity will bring it down

If you hit the ground or the pipes (obstacles) the **GAMEOVER**

Game over screen

**A simple layout that
That show your time in the game
Your score
And u can restart the game by pressing -R-**

Lava bird (flappyBird.v2)

**The same principle applied
But i added
A lava instead of the grass
And added the originale pipes
And background image**
